Projects

Since 1994 I work together with Thomas Siffling in his trio and former quartett. We played a lot of concerts, national and international. Also CD productions, radio- and TV shows, for example: SWR, Bayerischer Rundfunk, HR, 3Sat etc. (see media)

Since 1998 I'm member of the band project named "Friedemann". With this group which is half German and half French we toured Germany a lot of times. Friedemann, which is the name of our guitar player, is also the owner of the "Biber Records" record label where I often worked for studio sessions as a drummer and percussionist. (see media)

Since 1998 I'm also percussionist for the trio „Pipes and Phones“. Our first record in 1999 received the „Preis der Deutschen Schallplattenkritik“ in Jazz, which is one of the best reputations in Germany for records. From this time on we played a lot of concerts, national and international. 2001 we recorded our second CD which is called "MISSA". It combines the text of the christian mass with the sound of our music. (see media)

Since 2004 I'm also the drummer for the group named „Saltacello“. With this group we recorded two albums for SONY Music Korea and we work with the National Dance Theatre of Korea.

2001 I started teaching drums and percussion at the "Musikakademie und Musikschule" in Gernersheim.

2003 I released a book about drumset playing called „Floating Feet“. You will find all the information and a video about the method on my page.(see floating feet).
